ELEMENT OUTDOOR LED

WALL PACK

EMERGENCY LIGHT

The Element is an esthetically-pleasing, durable outdoor LED fixture combining high lumen output and low energy usage. It can be used in commercial, residential and hospitality applications including entryways, wall washing, general lighting of parking areas, parks, outdoor gathering areas and pathways.

Available in White and Bronze.

Housing:

Low profile, ADA compliant, architectural design in durable, vandal-resistant die-cast aluminum with a powdercoat finish. Includes UV-resistant prismatic polycarbonate lens, bright mirrored reflector and integrated photocell. Switchable between photocell or wall switch control.

Mounting:

Wall or ceiling surface mount with easy connect back plate; fits most standard size junction boxes. Conduit mount via coin plug on top of fixture.

Technical Specifications:

1050 Lumen output
CCT: 5000K, CRI: 75
50,000 Hours
Input voltage: 120/277V
11 watt LED, 14 system watts
