

LEDicated

The novel-metropolitan inspired Spec wall light provides a sophisticated flair to your exterior façade. The long-lasting LED life is ideal for Architectural Accent Lighting to bring perfection for years to come. Specially designed optics offer excellently controlled and uniform lighting, and an option to transform the Spec into an Up or Down light using 120° or 180° shields is available.

- Energy savings of 80% or more versus comparable metal halide luminaires
- Precision optics for controlled, uniform lighting
- Type V optical distribution
- Sophisticated die cast housing with weather-resistant powdercoat finish
- Vandal-resistant, UV-stabilized polycarbonate lens protects internal components
- 10-17 Watt DuraLED array delivers 760 lumens, up to 40 lumens per watt, designed to replace outdated Halogen and Compact Fluorescent lighting systems
- Available in 3000K, 4000K and 5000K CCT (others available by special order)
- Optional 120° & 180° shields create Up or Down light.
